

EU Green Deal Building a low-carbon, climate resilient future (LC)

LC-GD-8-1-2020. Innovative, systemic zero-pollution solutions to protect health, environment and natural resources from persistent and mobile chemicals

LC-GD-8-2-2020. Fostering regulatory science to address combined exposures to industrial chemicals and pharmaceuticals: from science to evidence-based policies

Deadline date

26 January 2021 17:00:00 Brussels time

EU Green Deal

- Each of the NORMAN database modules have its own requirements and are handled by various expert teams within NORMAN.
- If new data are generated and need to be uploaded in the NDS, it will be necessary to consider the requirements for curation of large amounts of data prior to upload
- It is also possible to envisage additional programming for specific 'project-oriented' tasks
- NORMAN NDS expert teams could be involved in cases where there is a requirement for e.g. specific data exploitation (datasets already available in NDS).
- Funding / subcontracting of NORMAN should be considered for specific tasks in EU-funded projects.
- This should be specified at the submission of project proposal through a Lol
